

SCORES KILLED BY TORNADOES IN THE U. S.—AT LEAST 50 REPORTED DEAD MONDAY MORNING, WITH GREATER TOLL EXPECTED

New York, May 9.—At least 50 persons were killed, more than a hundred injured, and property damaged to the extent of more than two million dollars by tornadoes and cyclonic winds, accompanied by down-pours in some sections, that lashed the middle west and south-west over the week-end.

Death list were expected to increase momentarily as additional reports were received.

Texas was hardest hit, with 25 deaths and half a hundred injured, reported from tornadoes that struck Garland and Nevada, both within 25 miles of Dallas, early today.

In Missouri, the tornado toll had reached 14 dead and an undetermined number of injured.

In Kansas, where a tornado swept four counties Saturday night, ten were reported dead. In Iowa, a woman was drowned when her motor car was swept into a ditch during a heavy wind and rain storm.

Garland, 15 miles northeast of Dallas and Nevada, 35 miles northeast of Dallas, were struck by twisters early today.

Miss Orma Conn, Red Cross nurse at Greenville telephoned to the Red Cross at Dallas that there were 17 dead at Nevada. Eight known dead was the toll at Garland. More than 50 persons were injured at these two towns.

Twisters raged Sunday night in central, south-central and eastern Missouri. They struck at or near Aux Vase, New Bloomfield, Carlington.

Double Tornado Strikes Kansas City, Mo., May 9.—Two tornadoes, striking several hundred miles apart, Sunday, took a toll of at least fifteen lives in central Missouri, and southern Kansas, according to reports reaching here today.

The most serious storm centred near Medicine Lodge, Kansas, where a death list of eleven was counted, while another striking below Jefferson City, Mo., added four more, according to meagre reports.

Property damage was extensive, with two score persons injured, it was reported.

South-central Kansas suffered the most damage, it was indicated. The tornado swept through Kingman, Reno, Barber and McPherson counties, originating near Medicine

Lodge, and moving in a northeasterly direction.

Storm Spills The freakish storm split after traveling a few miles, part of it spreading destruction to the east and the other part going directly north through East Hutchinson.

Eighteen persons were reported in serious condition this morning at Nashville, Hutchinson, Inman and Medora, Kansas. These towns contributed greatly to the property damage.

The pathway of the storm was clearly defined by wreckage left behind.

Houses were torn down along the entire 100 miles lashed by the wind. The twister finally spent its force north of Inman.

Texas Hit Again Today Nevada, Texas, May 9.—Fifteen persons, thirteen of whom were white, two negroes were killed, and twenty persons were known to have been injured by a tornado which struck this town of 800 population early today. Some of the injured were expected to die.

Practically the entire business district of the town, including fifteen brick structures, were destroyed.

The damage was estimated at \$250,000.

WEDDING BELLS

GARDINER-SMITH

Church Wedding at Red Deer on Saturday

A wedding of great interest took place at the United Church, Red Deer, at high noon Saturday, May 7, at which Rev. J. W. Churchill, pastor of the church, officiated, when Emma Leola, youngest daughter of Mr. George Wilbert Smith, M.P.P., and Mrs. Smith, became the bride of John Murray Gardiner, of Calgary, second son of Mr. and Mrs. R. J. E. Gardiner, of Macleod.

The bride made a lovely picture in a frock of hand-embroidered rose beige georgette with picture hat to match, and carried Opheles roses and lilies of the valley. She was given away by her father. The bridesmaid, her cousin, Miss Daisy Gaetz, was charming in a dress of almond green crepeback satin, with blonde trimming and green picture hat. She carried pale pink carnations. The groom was attended by his brother, Mr. Albert Gardiner, of Lethbridge.

Several fine organ selections were rendered for the happy occasion by the organist of the church, Mrs. C. W. Hamilton, these included the "Bridal Chorus" from Lohengrin and Mendelssohn's Wedding March. The setting of the ceremony was a lovely background of snapdragons and ferns.

After the ceremony, a reception was held at the home of the bride's parents. A dainty pink and white color scheme was carried out in carnations, snapdragons and sweet peas. Mrs. G. W. Smith was dressed in black and white georgette, while Mrs. R. J. E. Gardiner wore black satin crepe with tinsel bouquets. Mr. R. J. E. Gardiner and Mr. Campbell Gardiner, of Macleod, and Mr. O. E. Tisdale, of Calgary, also attended the wedding and reception.

Mr. and Mrs. Gardiner left on the afternoon train for Vancouver, Victoria, and Seattle, and will visit Mr. and Mrs. William Baynes at Matsqui on their way back. Mrs. Baynes is the bride's sister. Mrs. Gardiner's goingaway costume was a rose beige felt crepe dress, a black satin coat trimmed with ermine, and a black and white hat. Mr. and Mrs. Gardiner will make their home in Calgary, where the groom is a member of the office staff of the Wheat Pool.

The happy couple were the recipients of a very large number of handsome wedding presents.

Telegrams of congratulation were received from Miss Etta Drake, of Vancouver; Dr. Gardiner, of Berkeley, California; and from the Wheat Pool staff, Calgary.

The bride not only belongs to the earliest families of the district and town, but in her own character and service she has become most popular. She is held in the highest esteem. Mr. Gardiner was a member of the staff of the Merchants' Bank at Red Deer for some years. The warmest of good wishes will follow them in their new life.—Red Deer Advocate.

If a group isn't large enough to make murder a virtue, it isn't a state and the murder isn't war.

THE DOMESTIC ANIMALS ACT (MUNICIPALITIES) — S.A.I.E. AND REDEMPTION OF IMPOUNDED ANIMALS (SEC. 48)

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that the following animal was impounded in the pound kept by H. W. Tomlinson, located on the S.E. 1/4 2-8-26, W. 4 on the 20th day of March, 1927, and sold on the 4th day of April, 1927.

One Bay Filley, 3 years old, branded 73 over circle, sold to John Doyle, Macleod.

And that said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

For information apply to the undersigned.

Harry W. Bright, Secretary-Treasurer

Post Office—Macleod.

PRINCE ALBERTS NATIONAL PARK TO COVER LARGE AREA

Ottawa, May 9.—A new national park, covering approximately 1,377 square miles, has just been established under the name "Prince Albert National Park." It was announced today by Hon. Charles "This new park has been created for the purpose of preserving in perpetuity a portion of the primitive forest and lake country of northern Saskatchewan," according to a department statement, "and to provide for the people of Saskatchewan as well as other parts of the Dominion a great recreational area. The land set aside is largely covered with green timber and contains many beautiful lakes, with sandy beaches. The lakes abound in fish and the timber areas constitute excellent game breeding grounds. The area is reported to be of outstanding natural beauty and to be eminently suitable for recreational purposes."

Gateway to Hinterland "An interesting feature of this new national park is that it will constitute a gateway to the great northern hinterland as its river and lake system is connected up with great waterways lying to the north and to the east. As a matter of fact, it will be possible for a person to make a canoe trip with comparative few portages all the way from this national park to Hudson Bay."

"The national parks service is immediately establishing a comprehensive fire and game protection organization and proceeding with developments with respect to existing roads and trails. During the summer it will carry on surveys for the location of a main trunk highway through the park. In addition, the entire area will be carefully investigated with a view to the laying out of a comprehensive scheme of development in order that the many natural recreational advantages this area possesses may be made available for the people of Canada."

Changes in Personnel Hon. Charles Stewart, minister of the interior, today announced a number of changes relating to Canadian national parks.

J. A. Wood, assistant superintendent of Rocky Mountain Park, Banff, is being appointed acting superintendent of the new national park in Saskatchewan, known as "Prince Albert Park."

Arthur L. Ford, Calgary, district engineer, water power service, is being transferred to Banff where he will act as associate superintendent of Rocky Mountain Park, with the present superintendent, R. S. Stronach.

R. H. Knight, D.L.S., formerly of Edmonton, Alta., has been named acting superintendent of Jasper Park in place of Col. S. M. Rogers, who is being transferred to headquarters at Ottawa to carry on special work for which he possesses exceptional qualifications.

WHEAT POOL NEWS NOTES The oldest member of the Alberta Wheat Pool, as far as can be ascertained, is W. K. Wilkins, of Lanfane. He is eighty-one years old and is starting out to seed more than one hundred acres this spring.

The second series of Wheat Pool contracts have been issued. The first man to sign one of these new contracts was J. E. Gustus, who farms 1500 acres in the Calgary district. Mr. Gustus also signed the first contract ever issued by the Alberta Pool and is thus the first man in Canada to sign a Wheat Pool Contract.

W. J. Jackman, Wheat Pool director for the Edmonton district, will address a series of meetings along the Canadian National Railway in British Columbia. Many wheat farmers there are anxious to join the Pool. The new contract provides for their admission.

In reply to a complaint from the Scottish Baking Society that the Canadian Wheat Pools are unduly holding up the price of wheat in the face of a world's surplus, Pool officials contend the cost to the grower to produce wheat should have some consideration. Also that wheat varied 80% a bushel on the Winnipeg option market in the first few months of 1925 without the wholesale price of bread in Winnipeg being affected whatsoever.

RATHWELL NEWS Next Sunday (May 15th) Service in the Rathwell School House at 11 a.m. Preacher—Mr. F. Crowson. All are welcome.

THE DOMESTIC ANIMALS ACT (MUNICIPALITIES) — S.A.I.E. AND REDEMPTION OF IMPOUNDED ANIMALS (SEC. 48) Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that the following animal was impounded in the pound kept by H. W. Tomlinson, located on the S.E. 1/4 2-8-26, W. 4 on the 20th day of March, 1927, and sold on the 4th day of April, 1927.

One Bay Filley, 3 years old, branded 73 over circle, sold to John Doyle, Macleod.

And that said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

FAMOUS FRENCH FLIERS LOST WITHOUT TRACE—J. NATIONS SCOURING SEAS

Halifax, May 10.—Captains Charles Nungesser and Francis Goll were followed in their daring attempt at a non-stop flight from Paris to New York because Nungesser made the mistake of endeavoring to fly his machine the entire distance himself, in the opinion of Major Shearer, of the Royal Canadian Air Force, who arrived here from Ottawa today.

Major Shearer considered it a physical impossibility for one man to pilot an airplane across the Atlantic for thirty hours.

England Without Definite Reports London, May 10.—Up to noon today, England was still without definite reports of the French trans-Atlantic plane being sighted anywhere along the route. The various shipping companies are anxiously awaiting word from their captains at sea. Captain E. G. Diggle, commander of the Mauretania, the latest arrival in port, declared at Plymouth that those on his vessel had seen no trace of the fliers.

Last Seen Off Irish Coast Cherbourg, France, May 10.—Destroyers, ubmarine chasers and seaplanes began a search of the English Channel this morning in view of the possibility that Captain Nungesser's trans-Atlantic plane might have fallen even before reaching the English coast.

Early reports, though unconfirmed were that the Nungesser plane was last seen off Fastnet Rock on the southern Irish coast.

U. S. Navy Starts Search For Fliers Boston, May 10.—The start of the United States navy's search for Captains Charles Nungesser and Francis Goll, missing French trans-Atlantic fliers, came at 6:50 a.m. today when the naval tugs Wandak and Mohave cleared the Charles town navy yard for a hunt that will take them as far north as Sable Island.

Delayed at their berth during the night by thick fog that enshrouded the entire coast line to their ultimate destination the tugs got under way the moment weather reports showed the fog was lifting.

Both vessels will keep in close touch with the radio communications office at the yard here as with north Atlantic shipping and coast-guard destroyers and picket boats in the area to be searched, no indication of the duration of their voyage having been given out, but both boats were fully provisioned and fueled.

THE EMPRESS THEATRE --- CURRENT ATTRACTIONS COOPER DASHING AS WESTERN HERO — "ARIZONA BOUND" SHOWS STAR TO BE ACTOR OF REAL ABILITY

The screen's newest "Western" hero, already acclaimed one of film-dom's most dashing exponents of the stirring life of the great open spaces, comes to the Empress Theatre on Friday and Saturday, when Gary Cooper, Paramount star, will be seen in the leading role of "Arizona Bound."

Though Cooper has been in motion pictures but little more than a year, his fascinating screen presence and his real ability as an actor have already served to elevate him to a coveted position in the screen world. Raised on a Montana ranch, he is an accomplished horseman, and a typical product of the Great West.

For two years Cooper "rode herd" with the cowboys on his father's ranch, following the chuck wagon on the great round-up, sleeping in the open at night, and acquiring a muscular development which, combined with his height of six feet, two inches, makes him an ideal type for his role.

A competent judge of horse-flesh, the new star brings to the screen an equine companion which is acclaimed as the most beautiful horse ever seen in motion pictures. The remarkable steed, "Flash," is a cream-colored Arabian stallion, and in addition to his beauty and animation, is an actor of unusual accomplishments, rivaling Tony Silver King and Rex.

For his first starring vehicle Paramount has secured "Arizona Bound," a swift-moving story filled with suspense and thrilling situations. The direction of the picture was in the hands of John Waters, who has guided the filming of Paramount's Zane Grey productions. The fascinating Betty Jewel, "the girl with the velvet eyes," is seen in the principal feminine role, with El Brendel, the funny Swede, furnishing a riot of laughs.

GARY COOPER ACQUIRES FAMOUS FRONTIER TRICK Gary Cooper, newly crowned Paramount western star, recently learned a new trick in gunnanship. Cooper was required to take a heavy, frontier model six-shooting revolver, suspend it over his forefinger and extend it, but forward to a man standing opposite him.

As the hand came forward to take it from Cooper, he was required to flip it neatly on his finger so that, in the flash of an eye, the man facing him found himself looking into the business end of a weapon.

The trick is one which originated in the old days of the west when a man's life depended upon his skill with a revolver. Billy the Kid, Wild Bill Hickok, Buffalo Bill and other noted gunmen were famous for the trick and it has been handed down to the present generation of motion picture western stars and cowboys.

Although Cooper spent nineteen years of his life on the plains of Montana as a cowboy before his entrance in pictures, the heavy

WORLD'S MOST FAMOUS WOMAN AUTOMOBILE DRIVER WILL VISIT MACLEOD

On June 21st Macleod will receive a visit from Miss Violette Cordery, not only England's most famous driver but the world's most famous woman driver, who is making a tour around the world in an "Invicta" car of English manufacture. This tour is being made under the supervision of the Royal Automobile Club, and Miss Cordery will be accompanied by the Club's official observer.

Miss Cordery started her racing in 1920 when she was 18 years of age and holds more world records than any living driver, establishing long distance records in England, Brooklyn, and Monza, Italy. Her famous record-breaking journey was 15,500 miles in 11½ days in her six cylinder "Invicta" car. This record was officially established, her average being almost seventy miles per hour. On the 15th of October, 1926, Miss Cordery was officially awarded the "Dewar" Trophy for the most meritorious performance under R.A.C. observation. This Trophy is looked upon as the absolute "blue ribbon" of motoring, and is the world's highest award obtainable.

No doubt citizens of Macleod and district will be interested in this young English lady, who will pass through this city on June 21st. Among other citizens who will no doubt receive her will be Mr. Wm. Hoadley, our local Exide Battery distributor, who will officially service her Exide Battery upon which her car is entirely dependent for starting and lighting.

CHRIST CHURCH (ANGLICAN) May 15—4th Sunday after Easter. Divine service as follows: 8:00 a.m.—Holy Communion. 11:00 a.m.—Matins and Holy Communion. 2:30 p.m.—Sunday School and Bible Class. 7:30—Choral Evensong and Sermon.

Rev. G. McComas, M.A., Rector.

CARD OF THANKS The Macleod Women's Institute, wish to thank those who loaned their cars, and anyone who in any way helped to make their tree planting ceremony a success, also The Macleod Times for free publicity.

NURSES THE BACK BONE OF PUBLIC HEALTH, SAYS DR. ROUTLEY "The well trained nurse is the backbone of public health," said Dr. F. W. Routley, Director of the Ontario Division of the Canadian Red Cross Society, recently when addressing the Women's Canadian Club in London. "She is the link between the scientific processes of public health measures and the public that has to use them." He then told of the public health nursing courses which are now established in six Canadian Universities through the efforts of the Canadian Red Cross, of the institution of travelling Tuberculosis clinics; of the nation-wide instruction in Home Nursing Classes through which, in the past four years, over 11,000 women have received this valuable training and he expressed the opinion that in a few years' time this study would be added to the ordinary school curriculum for girls. In speaking of the Outpost Hospitals, so many of which are now being operated by the Red Cross throughout the frontier portions of the Dominion, Dr. Routley paid tribute to the magnificent services of the nurses in these institutions and referred to the need for health education of school children through the Junior Red Cross or other agency because "the production of a health conscience in every child in Canada would go a long way toward wiping out the worst of our preventable diseases."

Dr. Routley, a few days later, when called into conference with the Medical Survey Committee of the Women's Institutes of Ontario at the Parliament Buildings in Toronto, said that in his opinion adequate nursing service was the best solution of the health and welfare problems which are presented not only in New Ontario but in many other parts of the country and he told how the Outpost Hospitals of Canada in the last three and a half years had reached 4,000 women in shacks and cared for over 6,000 patients.

His suggestion regarding the most effective means of providing the necessary care of the health of the people in remote rural sections was that wherever possible there should be a small health centre such as the Outpost Hospitals, with a nurse in charge and at least one helper. It might be opened in any available building and might only contain two beds, as did many of the frontier outposts already in existence, but it could do a great work, for besides her work of healing in the hospital, the nurse in charge could give expert pre-natal, natal and post-natal advice to mothers, could extend to parents the information so many of them so badly need regarding food and diet; and could help in other ways to ward off preventable illnesses.

"The nursing service should never be confined to hospitals," said Dr. Routley in conclusion. "It ought to permeate the whole community and if it be at all possible such small emergency hospitals or health centres ought to exist in every settlement so that the necessary health education might be within reach of all our people."

THRILLING DUET CLIMAXES FILM—LEWIS STONE—GAY SHOWS MASTERY OF FENCING FOILS IN "DON JUAN'S THREE NIGHTS."

Two men, one the most dangerous swordsman in all of Europe, thrusting and parrying in the light of an early dawn!

The stunt was required for a scene in Paramount's "Arizona Bound," a western story of 1890 directed by John Waters, which comes Friday and Saturday to the Empress Theatre.

Which one would survive the duel—which one would lie huddled on the dewy grass—wounded or dead?

Who would welcome her? The man she loved or the man she had thought she loved?

And at last the car stopped, and toward her, over the slippery ground, came one of them—stained blade in his hand!

"Don Juan's Three Nights," which is to be shown at the Empress Theatre on Wednesday and Thursday is a swift, kaleidoscopic unfolding of a modern story of fast society along the Italian Riviera. The outcome of the lot hinges on the duel.

Lewis Stone and Shirley Mason divide honors in the picture.

MEMBER N.W.M.P.—BOXER—ACTOR IN FILMSPACK REN. AULT'S CAREER COMING TO THE EMPRESS

The first time Jack Renault knocked out a man in a fight, he shut his eyes and swung blindly at his opponent, who crashed to the floor. Renault was then a member of the Northwest Mounted Police in western Canada, and his opponent was a soldier, prominent as an army boxer. Rather than come back for any more blows from the crashing fists of the ex-lumberjack, the soldier lay where he had fallen and was counted out.

Following that surprising success with his fists, Renault became interested in boxing as a diversion and began training in the police department gymnasium. To give him more time for training, the police department transferred him to the rank of sergeant in the Montreal recruiting station of the Mounted Police. After cleaning up every amateur contender within sight, he left the service in 1919 and became a professional fighter. Since then Renault has fought 69 matches in which he scored 23 knockouts, was knocked out only once and lost five bouts. Some who have fallen before his mighty punches were Fred Fulton, Floyd Johnson, Tom Cowler and Al Benedict.

He fought Gene Tunney in 1923 in the city of brotherly love, going the best of five rounds.

The one-time indispensable hat-pin seems to have gone the way of the bootjack that grandfather always kept handy.

BIG ATTENDANCE AT WOMEN'S INSTITUTE TREE PLANTING CEREMONY

Arbor Day, 1927, will long be remembered as a red letter day in the annals of the Women's Institute of Macleod, for on that day 1200 trees were planted in the two cemeteries of Macleod.

Blank, barren and bare have God's Acres been for many many years on the eastern side of the town of Macleod, but the Women's Institute over a year ago resolved to alter the appearance with trees and shrubs, and so they prepared a wide strip of ground last year, and got it ready in fine shape for tree planting this spring. And so their most worthy endeavours culminated on Monday afternoon, and their efforts were rewarded by a very large number of town's people being present to assist in the good work.

The Institute had invited specially all the old residents of Macleod to be present and plant a tree, and the invitation was accepted by all who could possibly be there. The honor of planting the first tree was given to P. McCartin, who is a very old timer, and none is better known and respected in both town and country. Mayor J. W. McDonald, K.C., and other members of the town council were present, and also the priest and members of the Board of Trade. Several other societies in the town were represented, and every member of the Institute and the W. I. Girls' Club planted a tree.

W. H. Shield, M.P.P., and Mayor J. W. McDonald both gave short addresses specially eulogizing the splendid work that is being done by the Women's Institutes all over the country, and more particularly the laudable efforts of the Macleod Women's Institute on this occasion.

CO-OPERATION OF WORLD POOLS TO BE PRINCIPAL OUTCOME OF BIG RALLY Kansas City, Mo., May 7.—Final hours of the world wheat pool conference here are being devoted to further elaboration of the closer relations of all international units.

Significant of the general trend toward a single channel for movement of export business through closer co-operation is the fact that throughout the entire meeting addresses have sounded this note and discussions have centred around this idea.

No delegate has suggested even casually that a single agency for releasing world pool products is economically feasible.

The entire thought of the conference has been persistently in the direction of closer and more definite connections between all world grain pools, co-operation in acreage, methods of collection and final distribution and allocation of exportable surplus.

For domestic purposes, however, as one delegate put it, each pool unit must necessarily be the sole judge of its products.

The address of G. W. Robertson, of the Saskatchewan Wheat Pool, this afternoon, is awaited with keen interest. He will talk on "A possible basis for international co-operation," and discussion of points to be advanced is expected to cover the entire field and point a way for ultimate co-ordination, determining a common ground of action to direct the surplus products of all pools toward the most desirable world markets.

Will Ask \$50,000,000 It has been decided that the national pool organization of the United States will make a preliminary request of the federal government, following advice of Wm. Jardine, secretary of agriculture, for fifty million dollars.

It is expected that this will be supplied through federal land loans at from four to five per cent, payments to be spread over a quarter of a century.

Since this loan presupposes that the drive determined upon to secure pool members controlling not less than sixty per cent of all wheat grown in the United States will be successful, it means that some 30 or 40 states will be included in the territory that must be supplied with pooling facilities.

Handling Huge Amount At the present rate of production that sixty per cent will mean handling of more than half a million bushels of wheat alone, requiring nearly 10,000 country elevators and several large terminals. This represents a huge total investment compared with which the first fifty million to be sought in a very small portion.

The American delegates consider that the first loans will not be difficult at this time to get through at Washington, since 1928 is a presidential year in the republic and all parties are seeking support of the agrarian states.

The national delegates do not predict that it will be possible wholly to separate this pooling organization movement for a central selling unit in the States from political considerations.

State Assistance Sought By calling on the various states through their resolutions, to assist through state government machinery the campaign for members, the national organization have admitted this.

Colorado's state representative at the national pool meeting emphasized this point when he advised the delegates to go back to their states and tell their farmer patrons not to vote for any member of congress or senate that is not in sympathy with the principles of co-operative marketing.

ST. ANDREW'S PRESBYTERIAN CHURCH Rev. A. C. Wishart, minister. Sunday—May 15th, 1927. 11 a.m.—"The Hero from Bozrah." 7:30—"Not Frittering Away Time."

The Sunday School, the Young Ladies' Bible Class, and the Young Men's Bible Class will meet at the close of the morning service.

Ladies Aid, on Monday afternoon at 3 o'clock.

Prayer meeting Wednesday evening at 8 o'clock.

C. G. I. T. girls under the leadership of Mrs. F. Morris will meet in the church on Thursday evening at 7:30 o'clock.

Choir practice Friday evening at 7 and 8 o'clock.

A cordial welcome to the services especially to those who have no church home.

COMING EVENTS FORESHADOWED

CARD PARTY AND DANCE The Women's Institute are giving a Card Party and Dance on Friday, May 20th commencing at 8:15 sharp in the Odd Fellows' Hall. Good prizes—good music—good lunch. Proceeds for cemetery fund. Admission 50c.

PUBLIC MEETING A meeting of sportsmen is called for Tuesday, May 17th, at 7 p.m., in the Rest Room, for the purpose of organizing a Fish and Game Protective Association for the district of Macleod. All sportsmen are invited to attend.

The 93rd Battery will parade on Thursday, May 19th, at 8 p.m. at the Armouries.

Don't forget the Scarlet and Gold Club dance on May 24th.

THE ONE-TIME INDISPENSABLE HAT-PIN seems to have gone the way of the bootjack that grandfather always kept handy.

(Continued on Page Three)

CANADA TO SAVE MILLION A YEAR—CUT INTEREST ON NEW FLOTATION—PART OF 1917 VICTORY LOAN WILL BE RENEWED BUT AT LOWER RATES

Ottawa, May 6.—Canada will, it is officially stated, effect an annual saving of approximately one million dollars in interest charges by a proposed plan of re-financing in regard to Dominion loans maturing this year.

Three financial obligations are to be dealt with during the next seven months. The largest of these maturities is a portion of the 1917 Victory Loan, 5½ per cent. tax free, totaling \$63,437,250, expiring on December 1. This loan, it is stated, will be redeemed by the flotation of a new loan at a reduced rate of interest.

On November 1 the 5½ per cent. renewal loan of 1922, totaling \$29,068,400 will mature. A portion of this loan, at least, will be redeemed in cash, it is estimated, and the floating of a new loan at a reduced rate of interest.

It is expected that the three-year 4 per cent. notes, amounting to eight million dollars and falling due on November 15, will be redeemed in cash.

PROGRAM WOMEN'S INSTITUTE MAY 16-27 AT 3 P.M. PARISH HALL

"O Canada." Roll Call—Your favorite spring flower. Special Canadian Tableau. Song—Master Jack Ryan. Reading—Mrs. J. Swinarton. Solo—Mrs. A. L. Morrow. Community Singing. Tea will be served. Everybody welcome. "God Save The King."

JUBILEE CITY GIRLS' CLUB MEETING The regular meeting of the Jubilee City W.I. Girls' Club will meet Saturday at 2:30 p.m. in the Parish Hall, Macleod. Convenors of programme—Roberta Perry and Mina Ringland.

"O Canada." Soluting Union Jack. Initiation of new members. Girls Club Code. Minutes of previous meeting. Community singing. Roll Call—Verse to "Mother." Reports of standing or special committees. Reading—Roberta Perry. Diet—Mina Ringland and Muriel Callaghan. Current Events—Hope Dillingham. Birthday remembrances. Nomination of delegates to camp at Banff. Sewing and play period. "God Save the King."

EMPRESS THEATRE PROGRAMME FRIDAY-SATURDAY—May 13th and 14th—GARY COOPER A New Paramount Star supported by a cast of real favorites—and "FLASH" the wonder horse, in a Whirlwind Western picture— "ARIZONA BOUND" There's no limit to the thrills.

H. C. WITWER'S— "BILL GRIMM'S PROGRESS" Featuring the Film's Funniest Men—AL COOKE and KIL GUARD. A whirlwind two-reel Comedy Series.

THURSDAY MAY 12th, 1927

THE GREAT AMERICAN HOLD-UP

Canada produces annually \$25,000,000 worth of raw furs. Of this total, \$2,000,000 worth are produced in British Columbia, \$2,500,000 worth in Alberta, \$2,000,000 worth in Saskatchewan, and \$2,000,000 worth in Manitoba.

United States, with its 120,000,000 people and its great wealth, is the world's greatest market for furs. There is no duty on raw furs entering United States, but there is a duty on manufactured furs entering United States from Canada.

It seems as though the Americans do not want Canadians to tan a muskrat or a skunk skin.

A fox fur brings the trapper five, ten or fifty dollars. The manufacturer sells it for ten times that figure. But all the Canadian people get out of it is the trapping price.

The Great American tariff hold-up condemns this country to perpetual penury. It makes of the Canadian people a race of peons destined to make no more out of their raw materials than a bare living. This whole tariff relationship between Canada and United States has got to be overhauled and recast or entirely scrapped.

Canadians are buying \$600,000,000 worth of goods from United States every year. If they are to continue these purchases they must enjoy with the States the same measure of reciprocal trade which will enable Canadians to pay for that \$600,000,000 purchase not altogether in Canadian raw materials.

but in raw materials and manufactured goods to approach the same ratio on which United States sells Canada her American products.

Right now the trading is on a basis that reflects against the integrity, the intelligence and the future of every Canadian citizen—Vancouver Sun.

WHAT EQUALITY MEANS

It is one of the fundamental tenets of this continent that all men "are created equal"; and we are proud of repeating that statement. We might just as well bear in mind, though, that this statement refers to equality of right and opportunity, not of inborn ability.

This is emphasized by a report of Professor M. V. O'Shea of the University of Wisconsin, who has just completed an extended survey of the public school systems of a certain state.

He found that the children, far from being "created equal" mentally, were, in fact, created very unequal. Only 35 per cent of them fell within the normal mental age for the grades in which they were enrolled; 23 per cent were above that

mental age, and the remainder were mentally below it.

This is worth remembering. We weren't all born alike. Some men will always be born to be leaders and others will always be born to be followers. Our task is to see to it that all are given equal opportunities to develop the talents that lie within them. That is the extent of it.

IT DOESN'T PAY

Fifteen years ago Jesse Sharp, "lifer," escaped from the Ohio penitentiary. The other day, old and broken, he came back voluntarily.

The strain of evading police, of fearing constantly that he would be caught, was too great, he said. It ruined his health and prevented him from getting any enjoyment out of his freedom. So he came back.

A law-breaker pays for his crime in more ways than one. This man found out that a man's own conscience can punish him more sharply than any man-made walls.

It doesn't always pay, after all.

No room for complaint can be found in some modern apartments.

INTERNATIONAL WHEAT CONFERENCE

In the feature address of the International Wheat Pool conference held at Kansas City, Missouri, on Thursday, May 5th, H. W. Wood, one of the dominant figures in the Wheat Pool movement in Canada, expressed himself as opposed to a world wheat Pool under central control.

"If what is meant by a world-wide wheat pool is the merging of all co-operative wheat selling into one pool unit under some kind of central management, then I am unalterably opposed to it, because I do not believe it practical to do so," Mr. Wood said.

The chairman of the board of directors of the Alberta Wheat Pool delivered the feature address of the conference, and gave a careful exposition of the economics of the Wheat Pool. He explained the Canadian Pool's attitude towards international pooling by saying that everything should be done to extend the Pool system of marketing to all the wheat that is grown in the world, but on the unit plan, with each Pool unit taking the responsibility of its own work. Then between the Pools there should be the closest kind of co-operation, especially in co-ordinating their selling.

Referring to the operations of the Canadian Pool, Mr. Wood said: "We have a Wheat Pool in Canada handling over half the wheat, while the wheat growers in United States are protected by a 42-cent-per-cent bushel tariff. On the day I am writing this May wheat closed in Winnipeg at \$1.42 1/2, and in Chicago at \$1.33 1/2. The Grain Trade may tell us that the Wheat Pool has nothing to do with the higher price in Winnipeg. Be that as it may, the situation is suggestive."

The speaker read a despatch

from Glasgow, Scotland, in which Alexander Buchanan, chairman of a Baking Society, complained of the Wheat Pools of Canada holding up the price of wheat in the face

EMPEROR MON.-TUES. — ALSO SPECIAL TWO REEL COMEDY FROM A CELEBRATED O. HENRY STORY

of a world's surplus.

Mr. Wood said: "I presume that Mr. Buchanan, as chairman of a baking society, thinks the baker is entitled to include all costs of production with a reasonable profit, in the price to the consumer. This, of course, is a perfectly normal attitude of mind. He also seems solicitous of the interests of the

consumer and bemoans the fact that the usual drop in price did not occur when there happened to be a moderate increase in the visible supply of wheat. He seems to think that as a matter of course the producer would take the drop as some sort of a moral obligation, regardless of the cost of production or losses to the producer. While his

mind seems to be perfectly normal in regard to the right relationship of prices between the producer, or baker, of bread and the consumer, his vision does not extend to the producer of wheat."

Tree ages of man: Leans on mother; leans on an alibi; leans on a cane.

LOCAL NEWS

Frank Butler was a Cardston visitor last week.

Mrs. W. Armer and her daughter Dorothy are visitors in Calgary this week.

"Mothers' Day" was observed in St. Andrews' Church last Sabbath morning by a large congregation. The C.G.I.T. Girls formed the choir and sang three selections very acceptably. They also supplied the floral decorations for the church, and presented each one with an entered with a flower to wear "in

honor of mother." This service was very much appreciated.

The Rev. W. T. H. Cripps, of Lethbridge, was a visitor to Macleod this week.

Born—to Mr. and Mrs. T. O. A. Drinkwater, on Tuesday, May 10th, at Macleod Hospital—a son.

Mrs. C. Reach, accompanied by Miss Winnifred Reach, left on Saturday last for Portland, Oregon, and intermediate points. The trip is being made with a view to the recuperation of Miss Reach, whose health has been affected by the higher altitude at Macleod and they

Not in a PRICE Class but in a VALUE Class

McLAUGHLIN-BUICK stands alone—not in its price, which it shares with others—but in its VALUE, which it shares with none.

During the past nine years the public of this continent has invested more of its automobile dollars in McLaughlin-Buick than in any other make of gear-shift car.

And McLaughlin-Buick, true to its purpose and promise, has constantly striven to improve its quality—to better its value. The economies effected through McLaughlin-Buick's volume of sales have been utilized to enrich still further the quality of the car—by such improvements as the Sealed Chassis, the Torque Tube Drive, Mechanical Four-Wheel Brakes, an Engine Vibrationless Beyond Belief and the increased luxury and refinement of McLaughlin-Buick Fisher Bodies.

McLaughlin-Buick is today, as always the ONLY car in its value-class.

will probably spend several months on the American side.

F. K. Ralston, of Indian Head, was a visitor to Macleod this week.

A portion of the square at the Bank of Commerce corner on main street has been repaved during the past week.

During the past week the town office building has been receiving a new coat of paint at the hands of James Ringland.

Mr. and Mrs. R. J. E. Gardiner were visitors to Red Deer last Saturday attending the wedding of their son Murray Gardiner.

One of James Ringland's hens laid an egg on Tuesday that she could be pardoned for being proud of—it measured 6½ by 8 inches circumference—some egg.

G.N. HOTEL, WATERTON,
LICENSED

Calgary, May 9.—The new Great Northern hotel at Waterton Lakes National Park has been issued a beer license by the Alberta liquor control board in accordance with the laws of the province. Issuance of the license will be an undoubted assistance to the hotel in respect to the tourist traffic which is expected to accrue to Southern Alberta as a result of the opening of the new caravansary.

The first unit of the hotel, which is costing \$500,000 to construct, will be ready for the opening by July 1 next. Other units will be added until the total expenditure on the hotel according to present plans will reach \$1,000,000.

The man who first said variety is the spice of life didn't know his philosophy would be applied to matrimony.

Education doesn't seem so essential when you consider all it has done in ten thousand years.

Maybe China fell for red because it makes laundry work easier.

Man still has one advantage. He can reach for his hat when the baby howls.

Strange how a boarder can change the home circle to a triangle.

To Members of the Wheat Pool:

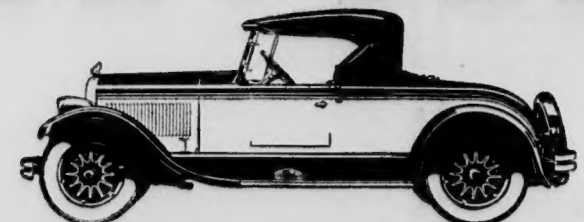

Once each year Wheat Pool members are called to choose the men they want to administer the affairs of the Pool for the coming year. To successfully direct a business of this magnitude requires that men of outstanding merit be selected. They must be chosen by the Pool members themselves. It is your job. It is both a privilege and a duty. Don't neglect it!

The system of electing Delegates was changed at our last Annual Meeting. Instead of sending each member a ballot card we are now required to send him a NOMINATING PAPER. You will find this on the back page of the membership list. Full instructions for using it will be found on the inside front cover and on the back page. Note that the nomination of any member must be SIGNED BY TEN MEMBERS and the Nominee must sign in the place provided on the Nominating Paper. All nominations must be returned to Head Office not later than Wednesday, June 15th next.

The first thing is to see that the member you want as your Delegate is duly nominated, then get your Nominating Paper into Head Office before June 15th, then watch for your ballot paper about the first of July. When it reaches you, use it promptly, being careful to follow the instructions which will accompany it.

Alberta Co-Operative Wheat Producers Ltd.
Head Office: Lougheed Building, Calgary.

CHRYSLER

The Competitive Significance of Chrysler's Rise to 4th Place

27th—18th—then 9th—and now 4th place in volume in the industry!

Such is the sensational three-year advance of Chrysler—on and upward to new heights of success.

Public preference for Chrysler products has thus been unmistakably expressed.

And, at the same time, are clearly evidenced the splendid sales achievements of the fine Chrysler dealer organization.

The public has endorsed Chrysler in the four great quality fields of the automobile market with its record breaking patronage—

First, because of Chrysler engineering and manufacturing genius.

Second, because of Chrysler performance, beauty, riding comfort, value and long life.

Third, because of the soundness of Chrysler Standardized Quality line of 36 body styles, priced from \$940 to \$4675, enabling Chrysler dealers to dominate the four great quality car markets.

LET US SHOW YOU WHY THIS CAR IS DIFFERENT
DRIVE IT YOURSELF --- THEN DECIDE

J. M. PAULSON & F. P. WALSHE

THE EMPRESS THEATRE CURRENT ATTRACTIONS

(Continued From Page One.)

eight rounds in a no decision bout. Last May he met Jack de Mave at Madison Square Garden. In this fight the young Canadian broke his hands and was obliged to lay off until spring, when he plans to enter the heavyweight tournament for a chance at the heavyweight champion's crown.

In the meantime Renault has become a screen actor by virtue of his role as the villain, a prize fighter in Richard Dix's newest Paramount starring picture, "Knockout Reilly," coming to the Empress Theatre next Monday and Tuesday.

Monday and Tuesday. Others in important parts are Mary Brian, Dix's leading woman; Harry Gribbon, Osgood Perkins, Larry McGrath and Lucia Buckus Seger.

FANS LISTEN IN ON PRODUCTION—SCENES FROM DIX PICTURE PUT ON AIR IN NATION WIDE HOOKUP

What is believed to be the first time actual scenes of a motion picture have ever been broadcast to the radio fans, occurred during the filming of scenes for "Knockout Reilly," Richard Dix's latest starring vehicle for Paramount coming next Monday and Tuesday to the Empress theatre.

Twenty stations were in the nation wide hook-up serving the National Broadcasting Company from New York. It is estimated that 20,000,000 radio fans were tuned in on this hour of unique entertainment.

Four scenes from "Knockout Reilly," then being filmed were broadcast by Graham McNamee, nationally known radio announcer. Richard Dix, Jack Renault and Malcolm St. Clair, director, were the principal studio lights before the microphone.

Joe Humphries, Jimmy De Forest,

Patsy Haley, Billy McPartland and other well known boxing figures were in the ring during the board-casting.

The hour of entertainment took the radio and motion picture fans into the studio for the first time, and there they heard the voices of the actors, the megaphone instructions of the director, the shouts of the extras, the crackle of the Klieg lights and the orchestra accompaniment to dramatic scenes. McNamee described the sights of the studio with the graphic picturesqueness that has marked his broadcasting of the great sporting events of recent years.

The first scene broadcast was that of a cabaret, with Dix and Miss Brian participating. The jazz music of the cabaret was sent over the air during the filming of the scene. Next followed the prison scene with Dix; then the dressing room of the star as "Knockout Reilly." The final scene was the prize fight between Dix and Jack Renault, ring heavyweight.

It is thought that the broadcasting of production opens a new channel in the national exploitation of pictures. It gives to the millions of motion picture fans, their only opportunity of contact with production.

and that an earnest effort will be at once made to put the town list on a paid-up basis—and we hope for and expect the co-operation of Macleod residents in this connection.

Miss Irene Young was a Lethbridge visitor last Saturday, where she wrote theory exams in Local Centre Rudiments of Music and Harmony papers, L.R.A.M. and A.R.C.M., London, England.

Rev. Dr. White, Supt. of Presbyterian Missions in Alberta, was in Macleod this week looking over the Spring Point and Olsen Creek mission field. This field was occupied by Mr. D. Munro, Presbyterian student, last summer.

Rev. G. Lytle, of the Bible Society, was a visitor to Macleod for the week-end. He occupied the pulpits of two of our local churches on Sunday and also gave an interesting illustrated bible lecture at the Parish Hall on Monday evening.

Mr. Justice Simmons was the presiding judge at the Civil Sittings of the Supreme Court here on Tuesday of this week. His Lordship made the journey to Lethbridge by the noon train as the cases set for hearing were settled prior to coming to court.

The farmers in the Rathwell and Allanfields districts intend going in largely for poultry this year. Over five thousand one-day old chicks have been ordered from a Vancouver chicken farm for these two districts. The chicks are expected to arrive this week. Most of them are of the Wyandotte strain.

The following pupils of Mrs. F. J. Cutler are in Calgary this week attending and competing in the Alberta Musical Festival. Misses D. Genge, Jean Hilliard, Gwen Hilliard, Esther Oliver, Margaret Hillier and Bernice Elder. The pupils were accompanied by Mrs. Cutler and left for Calgary on Monday morning.

H. J. Lockard, of Ardenville, accompanied by Mrs. Lockard, Misses Myrtle and Doris and Maurice and Mansfield, left on Thursday (today) for Spokane, Wash., where they will visit friends en route to Walla Walla, Wash., where Mr. Lockard will buy a fruit farm and locate permanently.

Local sportsmen will meet in the Rest Room in Tuesday, May 17th, at 7 p.m. with the object in view of forming a Fish and Game Protective Association, whose object will be by representation to the government to endeavor to get streams restocked with fish and game birds imported to replenish those nearly exhausted, also to have preserves established for propagation. All local sportsmen are urged to attend the above meeting.

REACH & COMPANY, Ltd.

GENERAL MERCHANTS—DRY GOODS, LADIES' AND MEN'S UNDERWEAR, BOOTS AND SHOES, GROCERIES, VEGETABLES AND FRUITS.

Our stock of groceries is so often turned over that it is impossible to have any stale or old stock. We have the Walker Bin Fixtures, making it hard for mice and flies to get in. These patent bins are famed all over Alberta for their sanitary purposes.

Although "Mother's Day" has passed, this does not mean the passing of the flowers, which celebrated that day. We shall continue the sale of pot plants, cut flowers, bulbs and bedding plants. A few flowering plants adds to the attractiveness of a home. A store window with flowers nicely arranged draws the lover of the beautiful and one sells the other, it is a paying drawing card. We do not brag about our prices whether in groceries or dry goods. But we know that we can't be beat. Occasionally rival stores will pick out a few leaders and hope the public will think that all the balance of their goods are on a par with the baits shown from time to time. If a customer comes in with her mouth full of the wonderful prices she has been offered—providing it is not below cost we tell her we will do the same. Of course if they keep this up, their creditors will ask them when settlement day comes—where are your profits? You do not meet your notes as punctually as you used to do and when he explains for catching trade he has sold in many cases at cost. The creditor says that kind of business never paid.

REACH & COMPANY, Ltd.

Correct in Principle

Correct in Design

THE MILLS WIRE WEEDER

Is built in two sizes, 14 feet and 9 feet.

Is the only weeder which operates on the correct principle to remove weeds, the revolving cables travelling underground bend the roots over and pull them to the surface.

It leaves the weeds on top of the ground with their roots up so they die. Other weeders fail to do this, leaving the roots standing up in the soil so that they grow again.

Is the only weeder which can be adjusted for various weed conditions.

It is shipped out with eight cables per section which are used when weeds are small, or the growth is light. If the growth is thick or heavy, the number of cables is reduced to six or five.

It is flexible and works well in uneven ground.

It does not pulverize the soil.

but on the other hand, as the cables revolve, they work the loose soil down underneath and lift the small clods to the top. This is an ideal condition in which to leave the soil as drifting is prevented.

It will pull any kind of weed. It will work in any soil which has been cultivated.

It leaves the surface smooth where other weeders leave ridges and hollows.

It requires less power than any other weeder of the same dimensions—6 horses for the 14-ft. weeder, 4 horses for the 9-ft. weeder.

It is strongly built for hard service. It is worth its weight in gold to the farmer who has weed trouble.

It is the only sure weed remover on the market to-day.

A machine will be on display in a short time.
